

# Advocate for Autism

Nevada has the lowest Medicaid rates in the nation

Support Senate Bill 96

Senate Bill 96, also known as SB96, will increase the rate for Applied Behavior Analysis in Nevada. We need support from our whole community to let legislators know that current rates do not allow individuals with Autism to get the support they need and deserve.

## How do I help?

Help your Legislators understand the issues by sharing your story in a couple sentences.

"Who are you?"

"Why does Autism matter to you?"

"How will this bill impact you?"

**We need your  
help now**

## Who is my Legislator?

1. Go to [www.leg.state.nv.us](http://www.leg.state.nv.us)
2. Click on "Who's my Legislator?" from the column on the right
3. Enter your address into the search bar
4. See your representatives for State Senate and State Assembly
5. Click on your State Senator's name and it will take you to their legislator information page.
6. Click "Share Your Opinion on Bills" under their contact information
7. Select bill SB96 and click on "in favor"
8. Fill out your information
9. Click "Submit Your Opinion"
